

International School of Turin Yearbook 2008-2009

A book from
the Students...

*A book from
the students...*

International School Turin

2008 - 2009

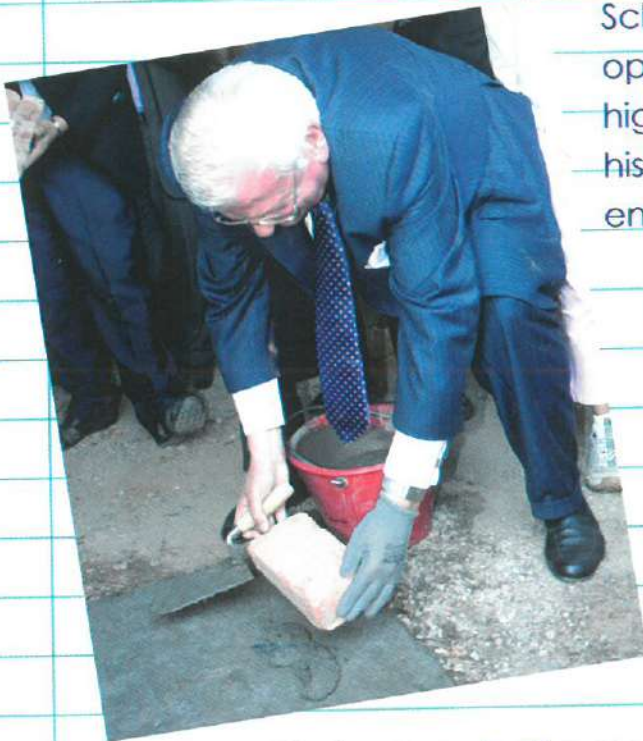

It gives me great pleasure to present to you the first yearbook of the International School of Turin, titled "A book from the students."

International schools are amazing places; they have things that stay the same and things that change on a regular basis. IST is no exception and this year has certainly seen many changes. At the end of the last school year, the IB announced that IST had become a fully accredited MYP school, thus completing the transition to the 3 IB programmes.

In September we welcomed a new Head of School, Mrs Carolyn Steinson, the school took on its new legal title of "The International School of Turin" and the doors opened with one of the highest roles recorded in the history of the school. At the end of September the original

founding father of IST, Mr Salza laid the foundation stone for the new school in Bonafous near Chieri.

November saw the first of four snow days that closed the school and most of Moncalieri and Torino. The other three extending the Christmas vacation until the 12th January. This was a very exciting time and much fun was had by

students on their return to the snow filled grounds of IST.

December and the General Assembly brought more focus for change, the official launch of the IST logo and school uniform. The board outlined its plans for change in the school up until the opening of the new school site in September 2010.

At the end of December we said a sad farewell to Tim Rose, the Lower School Dean and his partner Sally Christopher, artist in residence for the Lower School as they returned to the UK where Tim took up the post of Senior Lecturer at Brighton University.

After the delayed start to the term, January brought back Ms Claire Muir as Lower School Dean. Ms Muir brought her friendly smiles and decisive problem solving skills back to the Lower School as they prepared for their first PYP evaluation visit.

The changes continued into April when the school introduced a new discipline policy designed to help students better understand the process and help bring about a positive change in attitude.

As the old year passes so our graduating class await their final results and their future paths begin to take shape. Although those who will leave us this year will take the next important step in the journey of life, we await with excitement those who will join us in September.

I leave you with the many memories of the year, from those unique moments in the classroom to the shared experiences of STRACAT and International Day. We hope you gain many hours of enjoyment from what has been an amazing team effort.

I leave you with, "A book from the students"...

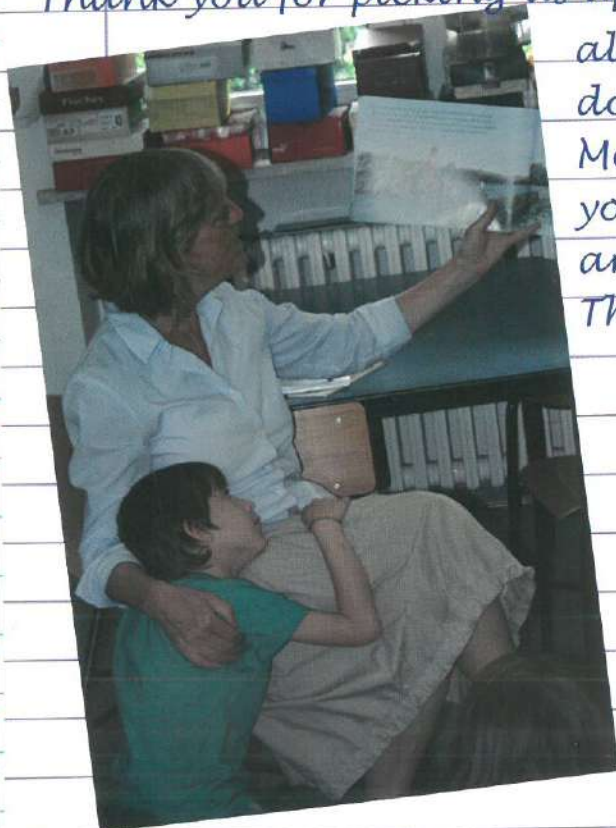

For the Lower School this yearbook is dedicated to...
Ms Cumiskey, Thank you...

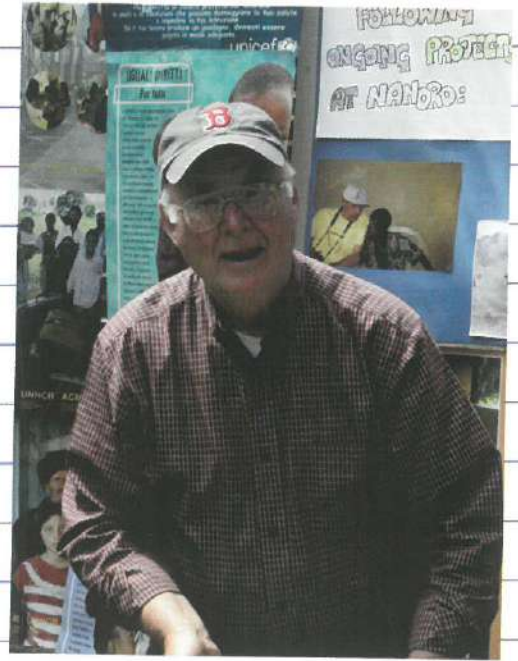

Dear Ms Cumiskey,
Thank you for everything that you have
taught us through the years. You helped

us improve our English; you helped us improve our maths. You made us say, "but why?" and not give up till we understood. You have helped us sort out our squabbles and helped us to become life long friends again. Your smile and your laugh and even your angry voice are a comfort to all of us. Your generosity seems to know no bounds.

Thank you for picking us up when we fell, thank you for celebrating all our successes with us. Thank you for doing this for every class you have taught. Most importantly we dedicate this book to you Ms Cumiskey, for being our loving and caring teacher for so many years. Thank you.

For the Upper School this yearbook is dedicated to...
Mr Boyle, Thank you...

Dear Mr Boyle,

You have taken us on a passage to Africa and helped us give water to the people of Burkina Faso. You have given us a room with a view in Florence. You have transported us to the rise and fall of the Holy Roman Empire and taken us to Pompeii. You have shown us the birthplace of the bard, and taken us to his theatre. You have shown us what human rights are and you have instilled in us the importance of spreading this message.

From your slide shows to our immaculate history notes, we thank you for your patience and your spirit of exploration. From those of us who have been with you across the globe, we thank you for opening our eyes to the many wonders it holds.

Mr Boyle, we dedicate this book to you, to thank you for all the dedication you have shown us over the years.

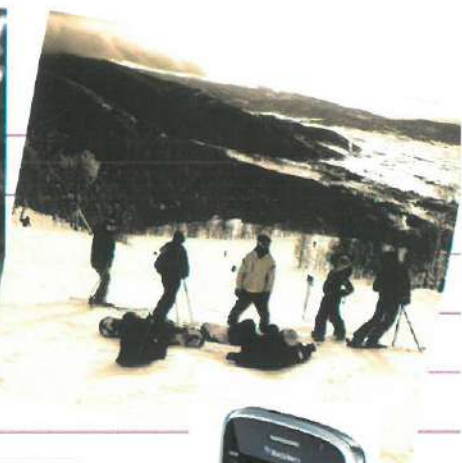

Grade 12

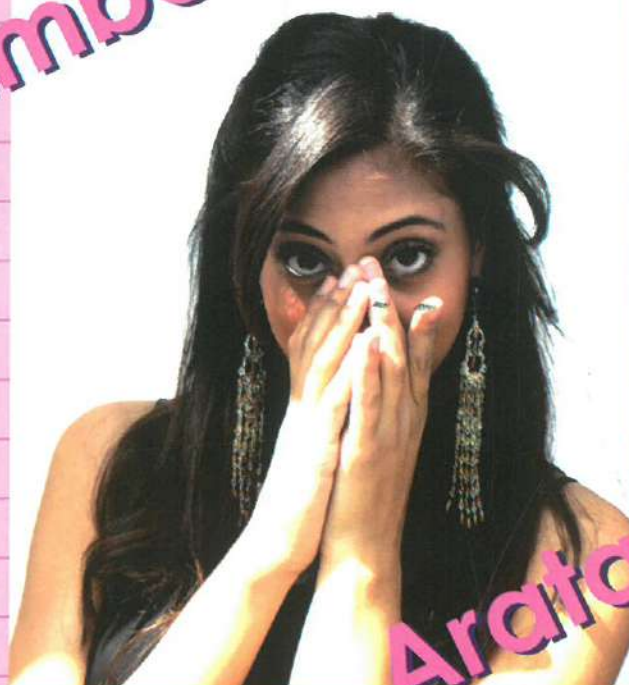

A class of eleven very different and distinct individuals yet united in their love and commitment to one another. Five of them have been at IST since at least pre-Kindergarten. Many others have come and gone over the years and some have even returned to the fold. Our 12th Grade, the class of 2009, are a perfect compliment to each other. From the shoppers, to the golfers, to the jokers, they work, they party, they play and some of them shop. But, as Mr Webber their Homeroom Teacher says, 'they stick together!' We all wish them well for the future and for all that it might hold for them.

Good Luck!

Kimberly

Arata

Kimberley joined IST in the September of 2004 entering the 8th Grade class. Over the past five years she has made a positive impression. Kimberley is exceptionally independent and is a very capable young woman. She has always had a clear vision about her future; she has always wanted to be a lawyer. Out of school she is always up-to-date with what's hot and what's not on the fashion scene. With her Louis Vuitton in one hand and her Blackberry in the other, she could easily be mistaken for a lawyer having just closed a big case at a supreme court. Although this is a few years off yet we are confident that she will achieve her dream in the future and we wish her well as she aspires to her destiny.

Gaia is one of the four students from her class to have been at IST since Nursery. IST has become her second home and speaking English is as native to her as speaking Italian. Gaia is our proud Italian, Torino girl who is just ready to dive in and explore the rest of the world. Mr Boyle has given her a fairly good head start on this ambition: he took her on his USA summer expedition as well as to Burkina Faso.

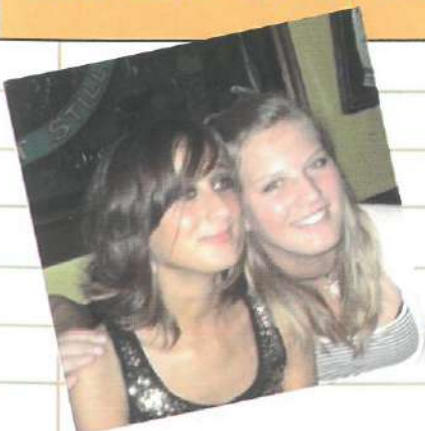

Gaia is a keen golfer and has spent many hours on golf courses, not only locally but around the world. She has even teed off the green at St. Andrews in Scotland. After she receives her IB results, Gaia hopes to study Management, we wish her every luck with this and look forward to seeing her when she returns home for the next Alumni event.

Giulia has geared the last four years to pursuing her dream of becoming a doctor, to the extent of being the only higher level Biology student for the last two years! We are sure that Giulia's kindness, patience and calm manner will stand her in good stead for her future career.

On the other hand, even Giulia's class mates admire her ability to party (and that is a big compliment!) and leave the stresses of the IB Diploma behind for a few hours at least. This is in sharp contrast to Giulia's sporting ability which came to the fore during her years as a highly dedicated and capable rower. One thing is for sure, wherever life leads Giulia, she has personal qualities to deal with anything.

Massimiliano

Bessone

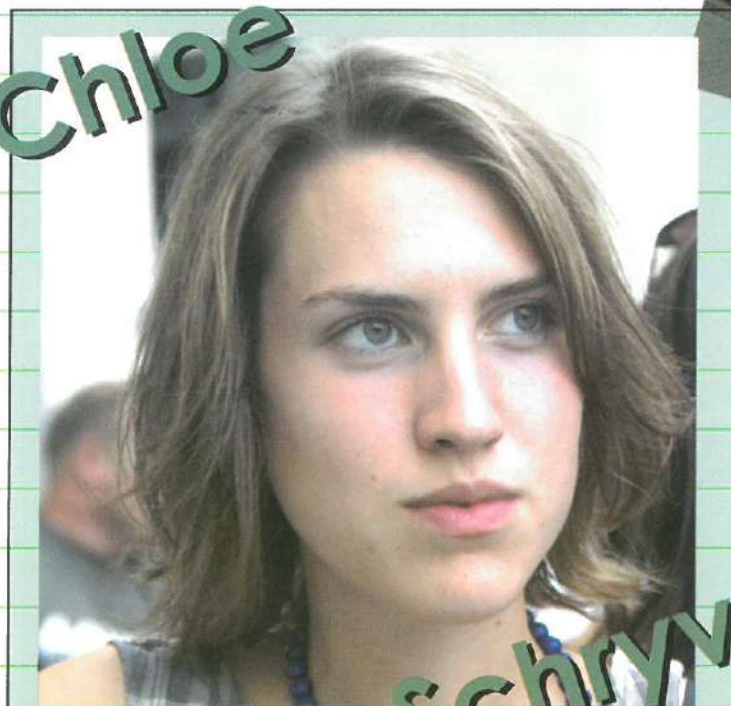

Max joined IST in September 2005 as a member of 9th Grade. From his early days at IST he has been recognized by his big beaming smile and his zest for life which even at 8.10am in the morning can brighten up the day for the rest of us. This has not gone unrewarded as he has received one of the top school prizes for "Most Positive Attitude". It will hardly come as a surprise to learn that he has also been the recipient of the "Sportsmanship" award.

Underlying this happy guy is a deep thirst for knowledge and a passion and drive to succeed at the highest possible level. Max's curiosity and intrigue are some of his personal qualities that have led him to be an outstanding scholar which enabled him to gain acceptance to the National Honor Society. He has one dream and that is to follow in the family business and become a dentist. I am sure going to the dentist will never be as painful again, good luck Max!

Chloe

De Schryver

Chloe was the most recent addition to the class and though she started off quietly she soon made a very big impression with her academic ability. After living and having been educated in a variety of countries it was fair to say that Mr Mores and Mr Webber were bowled over by her contributions in TOK! Following on from this Chloe will pursue a degree in Psychology. Through her university applications Chloe demonstrated her attention to detail after contacting most of the universities in the UK about Psychology courses! She finally chose Aberdeen which her brother also attends, the family is taking over! We wish her all the best in her future studies.

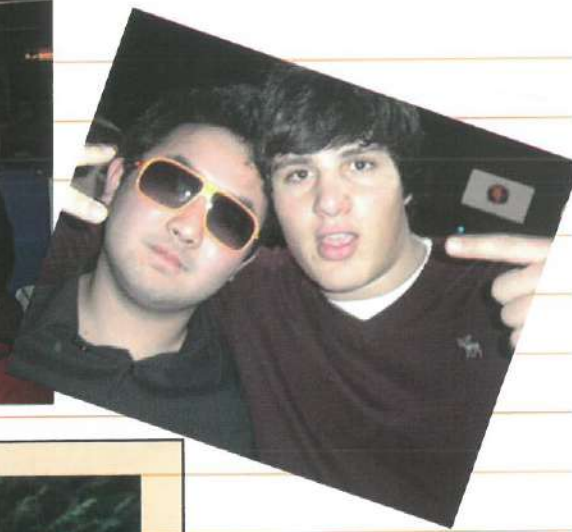

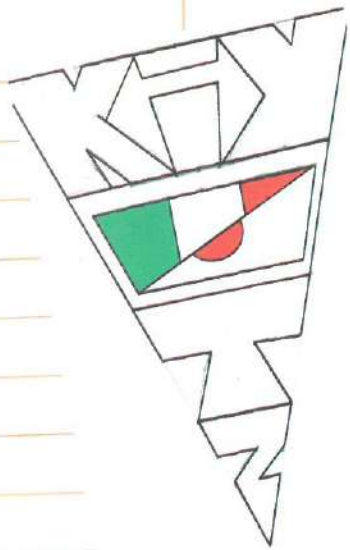

Mark first joined IST in 1996 as a member of the Kindergarten class with Ms Cumiskey and she reports that he had a really good year. He then rejoined the school in September 2007 to study the IB Diploma. In the intermediate years Mark studied in both Italy and the UK, achieving both his Terza Media and GCSE's.

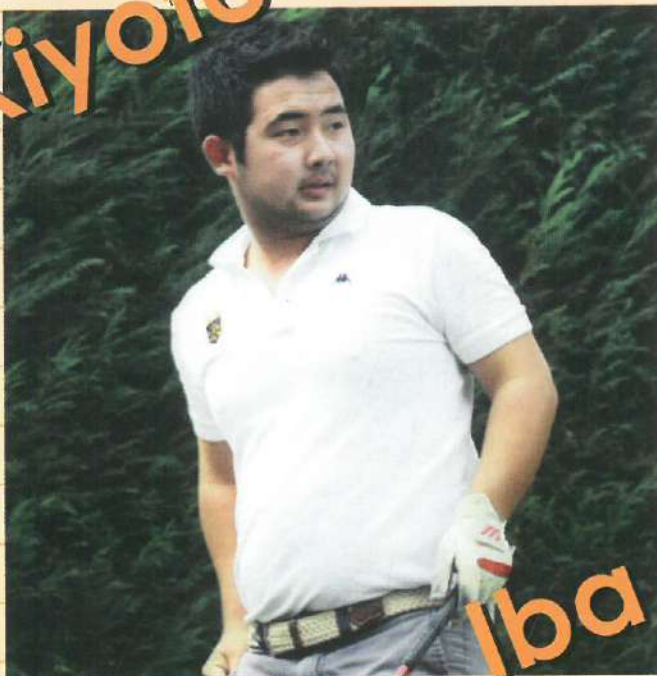

Mark is a keen sportsman and has played a variety of sports over the years including soccer, hockey, rugby, fencing and judo in which he achieved his brown belt. Aside from sport Mark has been developing his leadership skills wherever possible: in the UK he was a member of his school's Combined Cadet Force and served in both the RAF and Army sections where he reached the rank of Corporal. Since rejoining IST he has been part of the Student Council and has been Head Prefect for the last academic year.

With all these experiences Mark plans to study International Business and Management at university before possibly following a career in the UK Army. We wish you all the best for the future.

Kiyoto

Iba

Kiyoto arrived at IST in the September of 1995; upon his arrival he joined the Pre-Kindergarten class. Although he was born in Japan, Kiyoto sees himself as more Italian than Japanese having lived here since he was two years old. He certainly feels much more confident speaking Italian and English rather than Japanese.

Since taking up golf, he has been applying the skills he learns on the course to his academic work: he is methodical and calculates the risks before jumping into a situation, waiting for the right moment before taking decisive action. While he is a keen supporter of the Student Council and the social events they run, he is first and foremost a golfer. This is his passion. He plays as often as he can, practising in any spare time he has and participates in tournaments on a weekly basis. If the golfing doesn't work then he is set for a career in business. He has begun to find a real passion for this and has decided to study Business and Management at university, but hopefully somewhere near a good 18 holes! Kiyoto, we wish you the very best of luck.

Chiara introduced the 8th Grade class of 2004 to the concept of a New-Yorker. Like all New-Yorkers she found a place in everyone's heart with her kindness and good-natured spirit. She is very devoted to her family and her friends and she will do anything for them, come rain or shine. She is a true friend!

Chiara hopes to be studying in Milano this fall. She is planning to study Law and one day hopes to have her own legal practice. If she is half as devoted to her clients as she is to her family and friends then Chiara will make an outstanding lawyer for them. Good luck with your future dreams and goals.

Caterina

Licitra

Caterina joined the 10th Grade class of 2006. An exceptionally independent young woman, she has always worked hard to give her best performance in everything. She is a keen linguist speaking Italian, French and English to a high standard. Caterina travels regularly around Northern Italy, Southern France and Switzerland and enjoys practicing her language skills whenever she can.

Caterina has a wonderfully artistic mind that she hopes to apply to public relations for multinational companies. To help her on her way to achieving her dream she hopes to study Business and Management with language components. Caterina is not one to shy away from a challenge, we all wish you well for the future.

Giulia

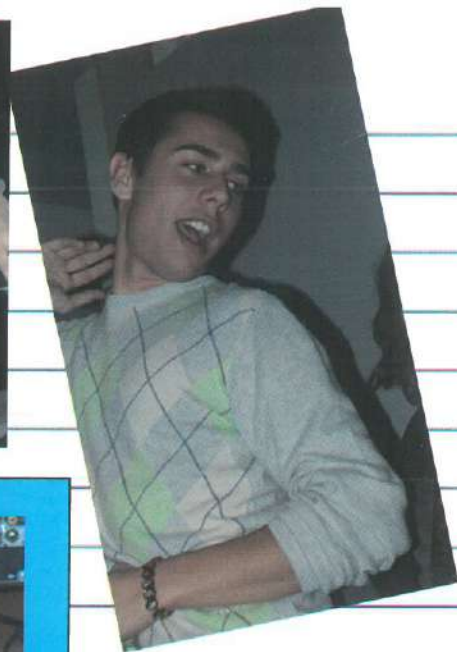

Lorenzetti

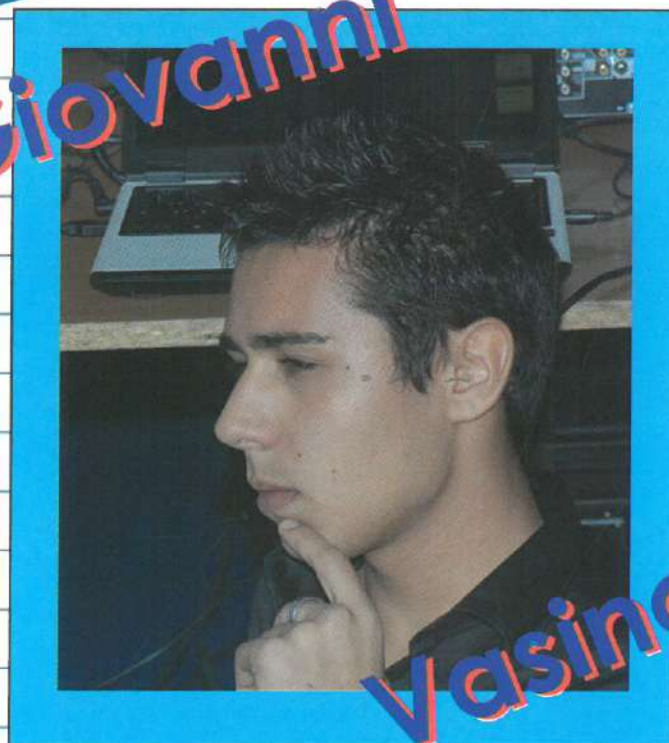

Giulia joined IST back in the September of 1994 in the Nursery class. Since then she has grown and achieved a lot. This is thanks to her spirit of dedication and commitment to excellence. While she is a keen golfer, snowboarding is her jazz. She won a Gold Medal in the Junior National Boardercross Championship of 2006 and was placed 6th in the National Boardercross Championship in 2008. Giulia has also participated in the European Snowboarding championships.

She applies her determination to everything she does. Giulia is a leader of the Patch Adams group and with the help of Giovanni they have trained a group of Middle School students to be clowns to entertain those less fortunate than ourselves. Her academic work is also of a high standard and with all these aspects she is a member of the National Honor Society. At university Giulia hopes to study Management and Economics as well as keep up her training routines. We wish you well for the future and hope to see you in the 2014 Winter Olympics!

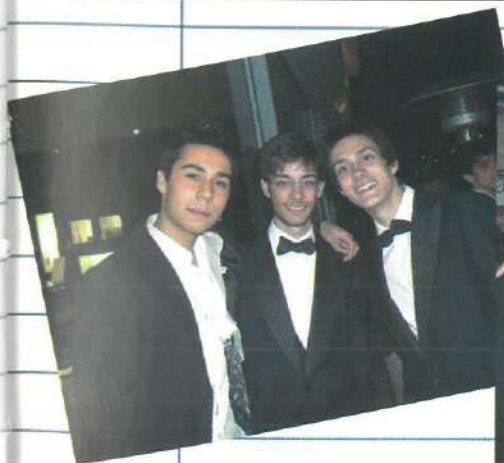

Giovanni

Vasino

Giovanni joined IST in September 1994 as a member of the Nursery class. He has a natural spirit of leadership, happy to direct from the front, he has been Treasurer of the Student Council, an MUN delegate and a Patch Adams Leader.

To relax, Giovanni loves to play soccer, hit the slopes with his snowboard or have a round of golf. Academically Giovanni is ready to work hard to get good results. It should come as no surprise that with the skills of scholarship, service and leadership, Giovanni is a member of the National Honor Society. At university he hopes to study Management and Engineering. Whatever you do Giovanni, one thing we know for certain is that you will be successful!

My Last day at IST...

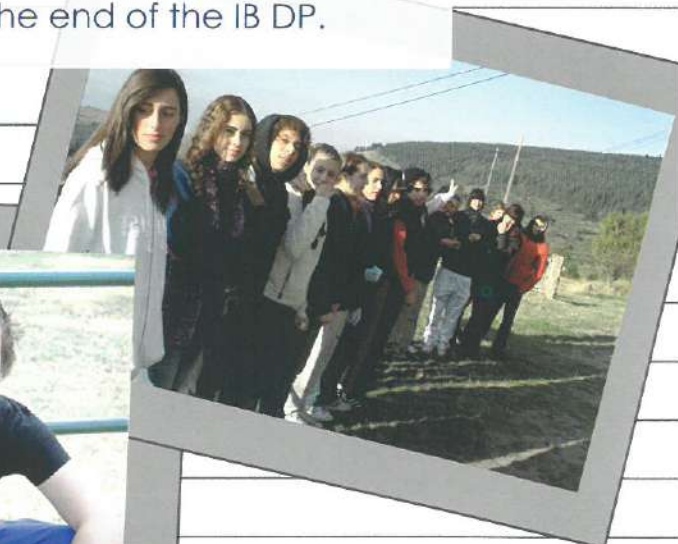

The Class of 2009

Grade 11

From Biology fieldtrips and Group 4 projects, to writing and performing plays in French, the Eleventh Grade has been kept busy with their academic studies. Nevertheless, with the concept of CAS fairly well understood, the students have been helping out in many different areas of the school: from helping run the Student Council and all that that entails, to writing, directing and performing a full-length (2½ hours!) stage production for the enjoyment of students, families and friends. Hardworking and industrious are two words which Mr Panontin has used to describe his homeroom students over the year. It is essential that they keep this momentum into their 12th Grade year to be sure of achieving their full potential at the end of the IB DP.

ACTIVITIES

Grade 10

The Tenth Grade students have a wonderful fun-loving nature that everyone notices when they meet them. However, when you look deeper you find a group of diligent determined young men and women striving to do well. Their hard work and passion has meant there have been many highlights: the Roaring 20's presentation day, the comparison of multicultural diversity, trip to London with Mr Mackay, the Vietnam presentation day and the Shakespeare workshops run by Ms Siviero and Ms Curletti. In the midst of all these great events the students found time to prepare their personal projects and have a two-day exhibition showcasing their excellent work. Ms Curletti, Homeroom Teacher for 10th Grade, said she had been really proud of her homeroom class this year, as 'they have excelled at every activity put before them'.

ACTIVITIES

Grade 9

With the traumas of Terza Media behind them and the future of the IB Diploma two years away, Ninth Grade settled into a year of adjustments. Mr Lee, Homeroom Teacher, highlights the main characteristic of the class as its united spirit. This has helped the class overcome some difficult situations and come through more resolute to do well in the future. Although they have not had many trips they have certainly enjoyed the day of "Respect" and the work they did on the Scottish Play, which saw them performing at a theatre in Torino. This is a class that likes to party but is not afraid of hard work.

ACTIVITIES

Grade 8

The Eighth Grade is made of two very unique classes. This year is always a struggle for our Italian students as they grapple with the challenges posed by the Terza Media examinations. However, their non-Italian classmates are always there to support their peers and help them where they can. The students had a wonderful trip to London and Stratford-upon-Avon, where they explored Elizabethan England. Hard working, dedicated and high achieving are just some of the words that Mr Boyle and Ms Walters, their Homeroom Teachers, have used to describe their students.

ACTIVITIES

Grade 7

The students of Seventh Grade are two distinct classes, and at the same time a very united year. Each of the classes has distinguished themselves by the number of times they have won different elements of Spirit Day contests. The students are well motivated and determined to see justice done. Mr Mackay and Mr McKenzie, their Homeroom teachers, have noted that, wherever possible, the students support one another in their academic efforts, particularly in creative projects. They have enjoyed their share of 'Mr Boyle Trips', including Aosta and Geneva. The students were so inspired by their trip to Geneva that they prepared a stall to raise money for the Red Cross and UNICEF at International Day.

ACTIVITIES

Grade 6

Sixth Grade is the first year in the Upper School. Traditionally, in many schools, a time students find it difficult to adjust to new regimes and learning styles. Nevertheless, Mr Morson and Ms Siviero, the Homeroom teachers, helped the students settle in quickly and they have begun to excel in many areas. The students have continued to develop their individual talents and, where possible, they have grouped these together for greater success. This has included team efforts for spirit day, musical ensembles and much more besides. They have enjoyed their first 'Mr Boyle Trips' to Rome and Pompeii and look forward with excitement to the trips of 7th Grade.

Grade 5

Ms Ayres and Ms Mealor both said, "What a year!" as they fell off the bus at the end of the Fifth Grade residential trip. The students have had so much fun learning this year and this is certainly evident within their classrooms. These are filled from top to bottom with students' work on the latest Unit of Inquiry. This led up to one of the best PYP exhibitions ever held. The students produced yet more amazing work over a very short time period and had a great time explaining everything to the many visitors that the exhibition attracted. The students are all excited and looking forward to the move to the Upper School and their rite of passage to 6th Grade. Well done.

ACTIVITIES

Grade 4

Fourth Grade have had a superb eventful year. Under the guidance of Ms Bennett-Arnold until Christmas, and then Mrs Price until June, but always with their assistant Melinda, they have explored many wonderful and interesting things. They have been to Genova and the massive aquarium, they have been to Salgari Campus and they have explored the Egyptian Museum in Torino. All this has helped extend the work they have done in the classroom. Finally their overnight trip with Ms Muir, Mr Morson, Dave and Melinda has helped them to become a much stronger and more dynamic team. They leave 4th Grade ready for the adventures of 5th Grade.

ACTIVITIES

Grade 2

The Second Grade found it difficult to find one thing they enjoyed the most because, as they said, it had all been really enjoyable. However, they highlighted two key things, first their experiments with the inflatable balloons and then their trip to the safari park. Seeing the animals up close was a truly wonderful experience for all the students and they really loved it. 2nd Grade were all very sad that the year had come to an end and it was time to say goodbye to Ms Schleicher, Ms Travers and Maegan. However, Ms Schleicher and Ms Travers are both confident that the students will do well in 3rd Grade, but 'will secretly miss you guys!'

ACTIVITIES

Grade 1

Ms Cumiskey and Ms Parrett with the help of Raquel, Gillian, Dave and Mr Jon (Firman), have guided the 1st Grade through a most exciting and challenging year. They have been all over the province of Torino on many exciting field trips including visits to the museo della scuola, a local dance company, the huge FIAT factory in Mirafiori and spent a wonderful time at Casalborgone. The trips have not only proved educational but have also helped the students develop greater friendships with one another as they explored the outside world. The 1st Grade's contributions to the art exhibition were a real team effort. They made a space rocket and a car that amazed all the visitors. Ms Cumiskey said "It's been a wonderful year and the students have all done a fantastic job!"

Kindergarten

Anyone who has ever visited Mr Mores in his office will know he has a big poster describing the importance of Kindergarten. The poster says that you will learn everything you will ever need to know for life in Kindergarten. Sarah (Ms. North) and her assistants, Dani and Margherita, have certainly taken this theory and put it into practice. The students have not only had really enjoyable lessons but participated in many trips that have included, the zoo, Casalborgone and La Mandria. They have explored extensively their own senses, types of transport, the weather and Italian culture. All the students feel they have had a very good year. Ms North has said how much the students have grown, academically, emotionally and physically over the year and are now well prepared for life!

ACTIVITIES

Pre-Kindergarten

Pre-Kindergarten have had a wonderful year learning to read and write. They love singing the phonics song with Nicola (Ms Coombes) and her assistant Lily. The children of Pre-K have been very fortunate in also being taught by Amber (Ms Muduroglu) The students all talk about their adventures around the school and which people they have met in the course of the day. They also loved their trip to the Agriturismo at Mombello.

ACTIVITIES

Nursery

Nursery is one of the most important years in a school and at IST, under the guidance of Christina (Ms Karlsson) and Jenna (Ms McLean) this is no exception. The teachers and their assistants, Stefania and Josephine plan many fun and exciting activities for these young students. Somewhere in between all the fun, the students find time to play outside and have a mid-afternoon nap. The students are all looking forward to starting Pre-K in September.

Graduation & Promotion Ceremonies

2009

12th Grade Graduation -2009-

Well that was the year that was!

As supervisor and executive editor of the yearbook, I would like to thank everyone who has helped me along the way. Thank you to all the students who have worked tirelessly every Monday afternoon and sometimes during other days and evenings to help us produce this book. To the many photographers, both staff and students from across the grade levels, this book was not possible without your dedication to taking pictures. To the writers and layout engineers who have helped put it all together, thank you.

Looking back to September 22nd when Giorgia, Riccardo, Michal and I sat down to decide on a theme, it has become everything and more than we dreamed of back then. We settled on the theme of "A book from the students..." The idea behind this being a scrapbook kept by the students of life at IST.

Thank you to Giorgia for keeping the project on track as project manager and to Giulia who single handedly "broke the back" of setting out the layouts and preparing the final book. Also to Alessandro Ranzini, the ICT Technician for making sure that even the smallest events had a photographer and keeping me sane as the deadlines approached. To those of you who have gone above and beyond, thank you and your pictures are shown below so all may know your name.

Finally I hope you, the reader, find many hours of happy memories as you leaf through the pages of this book, "A book from the students..."

James R. Mackay
