CLAIRE STANIFORTH, CATHRYN TOWNSEND, JULIA LYMAN BRADY

Welcome to the 2010-2011 IST yearbook.

Our move to the new campus this year has probably been one of the most exciting events in the school's history. The project has been a topic of discussion for many years, and some people thought it would never come to fruition, but we made it to Chieri, on schedule, to open for the beginning of this academic year.

The relocation of the school has given us more space and the opportunity to develop many areas of school life. Having purpose built classrooms all under one roof, an assembly hall and our own gym and sports facilities have really enhanced the educational experience for students at IST. The new cafeteria has been a huge success and we have expanded our after-school activities programme.

There have been many and varied successes throughout the year and this yearbook captures some of these special moments.

I would like to thank the yearbook team for all their hard work in putting this together and providing us with a record of people and events which we can look back on with fond memories.

Best wishes to you all,

Carolyn Steinson
Head of School

of school

Second anniversary of the laying of the foundation stone

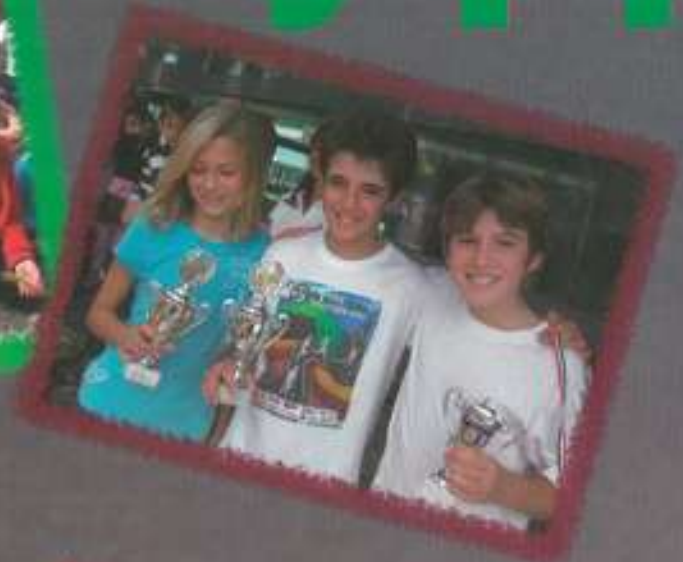

We now have a bright and spacious library which, for the first time in the IST history, has an area for the Lower School students. Now, thanks to the generous help of the PTA, we are in the process of enlarging our collection in order to help students enjoy the library more than ever.

International Day

From Italy to Sri-Lanka - IST to MENCAFEP

'We went to MENCAFEP with the idea of offering help when really those kids helped us. They taught us, with those smiles of happiness and innocence that we have to be grateful for what we have. They were less fortunate than us but still, they looked happy and were always full of energy and had the motivation to learn more and more. I think that we all came back to torino with a different way of thinking.

MENCAFEP showed us that no child has disabilities, just different abilities. MENCAFEP is a great place because it helps and teaches children how to best use their abilities and potential.

10 days lived in Sri Lanka were like 10 years lived in Italy. We lived unforgettable experiences: climbed mountains, rode elephants, built wheel chairs. But there's something even more important that we'll never forget! Marshan, Suba, Nitia, Nerjen, Maria Rose are some of children that have captured us with the simplicity of a smile, they changed our lives.

Each of them taught us how to share and learn from people with different problems and abilities. How to help each other in any situation and that's why our motto became "different cultures same heart".

The sweet smiles of the kids, the green and never ending hills of green tea, the different exotic spices, the Indian music which accompanied us through the whole journey. The experience was unbelievable, too good to be true and it just fulfilled all our expectations if not more.'

while Grade 8 tasted their creation of crêpes

Sapphire

This year saw the launch of a new House System, beginning with Middle and High School. The Houses are Diamond, Emerald, Ruby and Sapphire. Houses have an even mix of students between Grades 6 and 12.

Siblings are in the same House.

The idea behind the system is to encourage healthy competition between the Houses. It endeavours to raise the spirit of the school by having students working and having fun together.

Emerald

Diamond

Students can pick up House Points for something they have done individually or in small groups. For example, they may have produced an exceptional piece of work or shown a kindness to others without being asked to.

The possibilities are endless.

There are notice boards dedicated to the House System. House Points accumulated across the school will be calculated separately throughout the term. They will be added together at the end of the year to determine the overall winning House, which will receive a trophy to be displayed in the school.

Ruby

GRADE 5

The amazing production of 'Annie' from Grade 5 this year has definitely been one of the highlights of 2011. Each member of the cast must be recognised for their outstanding talent, professionalism and dedication. The show was fantastic, and an inspiration to all staff and students at IST. The cast raised almost 2000 Euros. It was decided to donate the money, less the deduction of costs, to an orphanage in Mexico and to the IST Burkino Faso project. Thank you Grade 5.

Miss Emma Rooney

The cast donated 700 Euros to the well project in Burkina Faso and 700 Euros to the Mission Mexico Orphanage in Mexico.

MUSICAL

Before the Christmas holidays, Miss.Rooney invited all of Grade 5 to take part in the musical Annie.

After the Christmas holidays we performed a song or dance and acted a little script. She gave us the parts, and the script and we started doing rehearsals.

We worked hard from the start, having to give up after school activities. We brought in props and costumes and we supported each other. As a cast we were always united as a family.

We passed difficult moments and had happy endings and we can now say we have been real actors.

We'd like to thank all the mums, the people backstage, and all of the teachers who helped, as well as everybody who watched us perform.

But most of all we'd all like to thank Miss.Rooney, for always being there when we needed help, for all her support. She always believed in us and made it possible.

Thank you Miss Rooney.

Lucrezia Rubini and Rossella Rodio

ANNIE

Graduating class

of 2011

Model United Nations

This year, the Nursery class has been truly international. The children have parents from various countries like Nigeria, Sweden, South Korea, Canada, Poland, Germany, Russia, Kenya, Brazil and of course Italy. During the "Mother Tongue Awareness Week" in April, the children learned about many of these countries, thanks to the successful collaboration of the parents.

The Nursery children's first year at IST, has been a positive experience. The children explored their different "Units of Inquiry" with curiosity and enthusiasm.

The children enjoyed exploring their feelings and physical characteristics during the "Marvellous Me" unit, while during the "Caring for Living Things" unit, they learnt about animals and plants and gained experience with planting seeds.

During the year, Nursery went on many exiting fieldtrips. They visited a theatre, an Agriturismo and a Zoo and had a lot of fun. The Nursery children have all made progress, socially and academically, and they have become good friends. They look forward to starting Pre-K in September.

The children in Pre-K have really enjoyed their first year in the new school. They all worked very hard and also had a lot of fun together. We had a wonderful class with a variety of different nationalities and characters. Our Unit of Inquiry about our school was especially interesting as the children had lots of exciting places to discover and explore on the new campus. We also had some interesting trips this year, to a theatre, a clothes factory, an Agriturismo, a donkey sanctuary and a zoo. Everyone enjoyed the year. I wish all the children good luck in their new classes next year.

ACTIVITIES PAGE KX

KINDERGARTEN

The children had so much fun in KX this year and have been a super class. They are all so happy, positive and enthusiastic. It has been a real pleasure to teach them.

Everyone has worked really hard and learnt so many new things. Not only have the children been busy learning how to become fantastic readers and writers, but they have also learnt about many other things. They even acted out the story of *The Very Hungry Caterpillar* and made some fabulous masks especially for it during our stories unit. There are some fantastic actors in KX.

The children have been enthusiastic about everything. They loved the role-play areas and imagining they were a bus driver, a chef, a customer in a restaurant and even a hair stylist. The sand and water tray has been a highlight of the year as was the Lego. The children have been very creative making many wonderful models – from cars to trains and even a Nintendo Wii. They also produced some excellent pieces of artwork and really developed their artistic skills. They produced individual pieces and also worked together to make a fabulous 3D model of Italy and a large car.

We have had a great year and made some lovely, unforgettable memories. Get ready Grade 1 teachers – KX are on their way and you're going to love them. I wish them all lots of success and happiness.

ACTIVITIES PAGE KY

KINDERGARTEN Y

Wow. What a busy, but wonderful year Kindergarten Y had. The children all put in a lot of effort and worked extremely hard. They covered number work as well as reading and writing. They produced a lot of art work, shared many stories, did much role play drama and also had fun playing in the home corner and play areas. They went on several class trips, celebrated class parties and enthusiastically took part in Sports Day. The children have been fantastic and worked together as a super team. They have matured so much and have made great progress in all areas. After all this learning, laughter and fun - they are ready for a well-earned rest. Goodbye Kindergarten Y and good luck in Grade 1.

GRADE 1X

We have all had a fantastic year. Every child in the class worked extremely hard to become a confident reader, listener and speaker. Consistently working hard and having great fun, we learned new skills in Maths and also learned about the world around us and our place in it, through Units of Inquiry.

Although many of our classmates were new to IST in September or later in the year, everyone joined together in unity, always looking after each other, like a little Grade 1 family. As the teacher of 1X this year, I am extremely proud of your children, they are amazing and I feel very lucky to have been a part of their lives.

Watch out for those Leprechauns.

GRADE 1Y

This year in Grade 1Y we have had lots of fun learning and exploring the world around us. We started by learning about ourselves and the body and really enjoyed learning about different cultures around the world...especially when Becky's mum made us yummy international treats.

We have worked hard at becoming super readers and have loved writing crazy and interesting stories during creative writing. We have also become excellent mathematicians and can now even do multiplication and division. We have worked very hard and are looking forward to the summer break, but we are also excited about Grade 2 next year where we will continue our learning journey.

GRADE 2X

We have shared many memorable experiences together as Grade 2X. It has been a year of hard work, exciting experiences and great fun in which time has gone by so fast. We have learned many new things and made lots of friends and connections. I have been impressed with how all the units caused interesting discussions and well researched presentations.

I am really proud of each and every member of our class because I know that they can accomplish whatever they set out to do. I will miss you next year and will think of you a lot but I know that wherever you are you will be unbeatable 3rd Graders. GOOD LUCK.

To the parents - Thank you so much for all you did for your children and for all your co-operation.

G R A D E 2 Y

We've had a very exciting year in second grade, the students have worked hard and learned lots of new things, and they've had a lot of fun as well. They have been dedicated to their learning. Each and every one of them has made progress, and I am very proud of their success.

We've had some great trips out – to the safari park, to see the Carabinieri, to visit a coffee factory – and we've done some stimulating activities in school as well. The 'shop' activity where the children had to man their own shops was a great success – the children enjoyed themselves and learned to handle money. We did some exciting experiments in the high school science laboratory which the children were still talking about months later. We have enjoyed the experience of planting seeds and watching our plants grow in the vegetable garden until we picked some of them to take home and eat, and in Master Chef activity the children showed what they had learned about healthy eating. We particularly enjoyed planning and presenting an assembly on 'bucket filling' – about how to consider other people's feelings and make others feel good.

Of course a successful year depends on the parents' interest and participation and, as 2nd grade teachers, we'd like to thank everyone who came in to the Master Chef activity, to those parents who came in to explain about their working life during the unit on jobs, and an extra thank you to those who come in and helped out on a regular basis.

This has been a lovely group of children to work with, and I wish them all the very best for 3rd grade.

GRADE 3X

I have had a wonderful year because 3X are great students. Each one of them has their own special quality.

I thank Anna for all the times she taught us Maths; she made learning fun and will make a great teacher one day.

Fabrizio is such a friendly and sociable boy, an excellent team player and a brilliant artist. I have really come to value his skill and creativity.

Over the year I have learned how fearless Jasmine is. She has a quiet nature but is incredibly brave; on her first ski trip she happily skied on the high slopes.

As well as being an excellent student, Eline is very caring and open-minded. I have really appreciated her sensible nature and calm approach.

To say Carlotta is a great communicator would be an understatement. She started back in September without a word of English and now she is correcting us all. We have all benefitted from her enthusiasm.

As well as being gentle and kind natured, Enrico has grown to become more confident and assertive. He is truly a thinker now.

Gianpaolo's brain has been lighting up like a light bulb in the second half of this year. He is becoming noticeably more knowledgeable, especially in Maths.

What I remember most about Sofia Miano is how she battled to get her 'Risk-Taker' award for trying to swing on the bars and do cartwheels. She truly earned that leaf.

Francesca is what we call a book worm in England. Most mornings she can be found in a corner quietly reading her favourite books. It's been a real pleasure to know someone who loves reading so much.

Roberto joined us at IST this year. He is so patient and considerate and has had a wonderfully calming effect on us all.

Hazirah is not only very hard working and a brilliant student she is also kind, helpful, and generous.

Federico is an excellent artist whose enthusiasm spread to other class members over the year.

I am really going to miss Stefano's energy and wonderful questions - "What if...?" - "This might happen if we...?" and "But we can't know the truth about that?" You're a great inquirer Stefano.

Ale has been a very conscientious school counsellor and his energetic nature and enthusiasm has been a great asset to the class.

Maria Sole is always there to help. I have never met someone so keen to give out books and folders. Thank you Maria for being so caring.

Sofia Weston showed everyone what a risk taker she could be at Salgari Campus and on the ski trip. She has also been a hard working student and a great friend to her class mates.

Thank you to all of you for making this year so memorable.

G R A D E 3 Y

What an exciting year it has been in the 3rd grade - new school, new friends, new experiences, and new teachers. We had a fantastic time learning about celebrations around the world, teamwork, bullying, early humans, technology, Planet Earth, and much more. Everyone was a risk-taker on our trip to Salgari Campus and an inquirer at the Automobile and Science Museums. We all worked hard to practice our times tables this year and enjoyed the timed quizzes. Some of our favourite moments were going on the Ski Trip, visiting the Bossea Cave, and taking part in the football tournaments and mother-tongue activities.

To the students in 3Y, "You were a pleasure to teach and I wish you many successes next year".

GRADE 4X

4X had a busy year. They settled in quickly to our new campus and got to work straight away thinking about themselves as learners and identifying their different learning strengths and styles. It didn't take long for us to realize that most of the class are kinesthetic learners; they like to keep moving.

This was evident as details of Andrea's ski races and Leo's ski jumps, and often ski accidents, filled Monday morning news sessions. Martina and Nina had their share of on and off-piste adventures. Kiki wowed Northern Italy with his rugby skills. Giulia hip-hopped and Sellina led the dancing at our Christmas concert and demonstrated her boxing skills to the elementary students. Duccio and Marlena zoomed up the lanes in the swimming pool. Alessandro worked on his ball skills at the school soccer club whilst Wouter, who joined us in January, quickly made a name for himself with a local soccer team. Marco rode horses and took his dogs for long walks (catching all sorts of insects along the way, of course). I ask myself, how did they find the energy to come to school?

GRADE 4Y

Grade 4Y have had an incredibly action packed year.

Through our units we have researched how we learn best, found out about a variety of ancient civilisations (with a focus on Ancient Egypt), learned how the power of language can persuade, completed posters on the life cycles of a variety of animals, delivered presentations on various ecosystems and learned about how our physical environment affects how we live.

We have also had our first residential trip. We had so much fun learning about the wolves that live in the mountains and how to use a compass to direct ourselves.

As we enjoy hearing stories so much, we even listened to some terrifying ghost stories!

Overall 4Y have had a very enjoyable and successful year.

GRADE 5X

5X: 2010-2011 an unforgettable year.

Special events included the Roman afternoon, the ski trip, football tournaments, the fair trade bake sale, Annie, the exhibition, and the residential.

Memorable things included, learning different greetings in each other's languages like Buongiorno, Guten morgen, dzień dobry, ohai gutzimats; Kalimera – different greetings every day, the Smartboard, the sticks, ski weekend broken bones, seed planting in the garden, cooking in the kitchen, birthday celebrations with cake, exhibition group anticipation, circle times on the parachute listening to each other's news, Grade 5 meetings all squashed in and stars of the day. Grade 5X – a class full of stars!!

G R A D E 5 Y

This year 5Y has been memorable for so many things....

Albi's cheeky smile and helpfulness, Alice's tenacity, Alex making us all laugh, Ben's amazing Maths skills, Charlie's passion for all things linked to football, Edo growing with confidence, Federica always having something really important to say, Federico participating in running activities, Felipe organising his group with German precision, Jacob being thrown into the middle of the fair trade bake sale, James for always explaining English sayings to us, Laura singing in front of the whole grade, Maria Sofia always having a smile on her face, Mati shining in all group work, Nico surprising us with interesting comments in discussions, Tilly singing solo in Annie, Valentina for her consistently positive attitude and Miss Doran's 54321.

What a fantastic class.

GRADE 6X

The transition from Grade 5 to 6 is a massive change. The students have a lot to take in. They now have more than one teacher, move around the school for their different lessons and have increased amounts of homework.

When Paola Ronzan and I were asked to be Grade 6 homeroom teachers, we decided that we would try to mix both classes as often as possible in order to keep former friendships alive and have Grade 6 work as a team, not as individual groups. We have not been disappointed.

We celebrated birthdays together, found out information about one another and found new talents: Lorenzo Brondi – Michael Jackson impersonator, Gabriele Pisanti – Techno dancer and Giovanni Ferro – musician and singer. Both Karen and I have enjoyed our homeroom and PHSE lessons with our students and we will miss them next year.

GRADE 7 X

Grade 7 was a fantastic year! Not only did we have a wonderful new campus, we also had many opportunities to present our work as well as many obstacles to pass. Studying was hard but when the results were good, we felt proud.

Overall, we will remember the many events that made the year enjoyable. Visiting the Ferrero Chocolate Factory, International Day, school dances, non-uniform days, house events, Sports Day, the Swimathon to raise money for Burkina Faso, the Chieri Sports Tournaments, selling hotdogs to raise money for the Japan earthquake victims and the RSPCA, the Winter Concert, and last but not least our residential trip to Birmingham, UK with Mr. Morson, Ms. James, Ms. Richards and Ms. Faulkner.

We would also like to thank our homeroom teachers Mr. McEvoy, Ms. Hahn and Mr. Taylor.

ACTIVITIES PAGE

GRADE 8X

A fitting departure for the 8th Grade's adventure in learning this year had to be their spontaneous sense of Community Spirit as seen in their presentation of the year's first assembly dedicated to the very idea of reaching out and caring for others. The practical application of this spirit soon materialized in their organization of a successful Swimathon which raised funds in support of our annual well project in Burkina Faso.

While several members of the class stand out as natural leaders willing to assume responsibility for organizing such class activities, the class as a whole remained united in a spirit of friendship as they concluded the year with a spring discovery trip to Stratford in search of Shakespeare.

Their promotion ceremony in June was a milestone of reflection in their ongoing journeys to becoming even better travelers with a purpose in the world community. Bon Voyage!

This group of young people were a very social group. By the end of the year they had bonded well. They supported each other and cliques were not in evidence. This meant that when collaborating they had more fun than most and could be easily grouped and grew to know and understand each other very well. Their year's highlight was, by a nearly unanimous vote, their trip with Mrs. Steinson and Mr. Boyle to London and Stratford-upon-Avon in the UK. They especially enjoyed London, including a memorable workshop in the brilliant Tudor reproduction of the Globe Theatre on the South Bank. The ending to the year showed what a confident group they had become with some very eloquently voiced memories of their year together at the end-of-year promotions.

GRADE 9Y

Never let your classmates down, that was 9Y's motto. Great memories and exciting activities were a big part of our class. We were a united group and truly international. Smiling faces and laughter were always present. We were there for each other during tough times and as time passed, we become more and more united. We may not always have gotten along, but in the end we tried to solve our problems in a mature and responsible way. We liked to communicate not only with other classes, but also with other cultures. We really enjoyed our field trips and after school activities, as well.

ACTIVITIES PAGE

"We're just a big happy family!" says Julia. "We love each other!"

This opinion may not be *universally* shared (according to Francesco), but we have all enjoyed the year. The highlights include, History with Mr Lawson, Maths (of course), and the football tournament in Rome. But the icing on the cake was the trip to Mezzolago, "the best ever", and which according to Carola, "perfectly concluded an awesome year with the class".

Canyoning, bonfires, and getting to know everybody better made it a great experience and "made the class more united". Sadly some people are leaving at the end of grade 10, and we will miss them.

GRADE 10

10Y have had a very eventful year striving to improve their team spirit. They have reflected on the year and would like to express some of their feelings in their own words and through the words of some well-known people.

"From the first day we heard the words, correct school uniform and no chewing gum. We didn't show our best at the class assembly and very few people fought for class unity. But we survived and found the right team spirit during the residential trip at Lake Garda".
A. McTaggart and G.D'Angelo

"Prejudice is a register that stops the flow of Knowledge." G.Rampone.

A. Mollo chose: "Education is a progressive discovery of our ignorance." Will Durant

T.Bolarin chose: "The task of the modern educator is not to cut down jungles but to irrigate deserts." C.S. Lewis

R. Anfossi chose: "Experience is not what happens to you. It is what you do with what happens to you." A. Huxley

I would like to thank you all for an interesting year.

This year, grade 11 students have been working through the academic rigours as well as the Community and Service hours required in the first year of their DP course. Now they are starting to research which courses and universities they would like to apply to. How time flies.

As well as working on their academic studies, many class members have involved themselves in extracurricular activities and roles of responsibility. We have several prefects and senior members of the school council in the year group.

Some students went on the trip to Sri Lanka to undertake voluntary work, others were involved in successful football tournaments in Rome and Milan and recently, the whole grade went on a Science trip to Spain - a busy and demanding year.

GRADE 12

What a team. 29 students in a room with capacity for 26 - that's how we first met. So we moved to the cafeteria and there we stayed for the year. The Grade 12s were involved in many events during their final year of school.

At the very first HS assembly at the new campus, the Grade 12s performed magnificently, inviting all students to be Honest, Friendly, Passionate, Caring and Calm.

During the "Discover the World of Coffee...the true story" event, the Grade 12s presented their Group 4 Science Projects, about what Italian caffeine can do to our bodies, to the Grade 10s and 11s.

Other events included, Football in Rome, where our Grade 12 stars performed magnificently with the girls going all the way to the final, MUN in Paris...what a debate, National Honours Society Casino Nite, prefects always at the ready for assemblies, skiers supremo - instructors, competitors and assistants to the physically disabled, superb performances at the IST Winter Concert 2010, a wonderful IB Diploma Art Exhibition and IBIZA Beware.

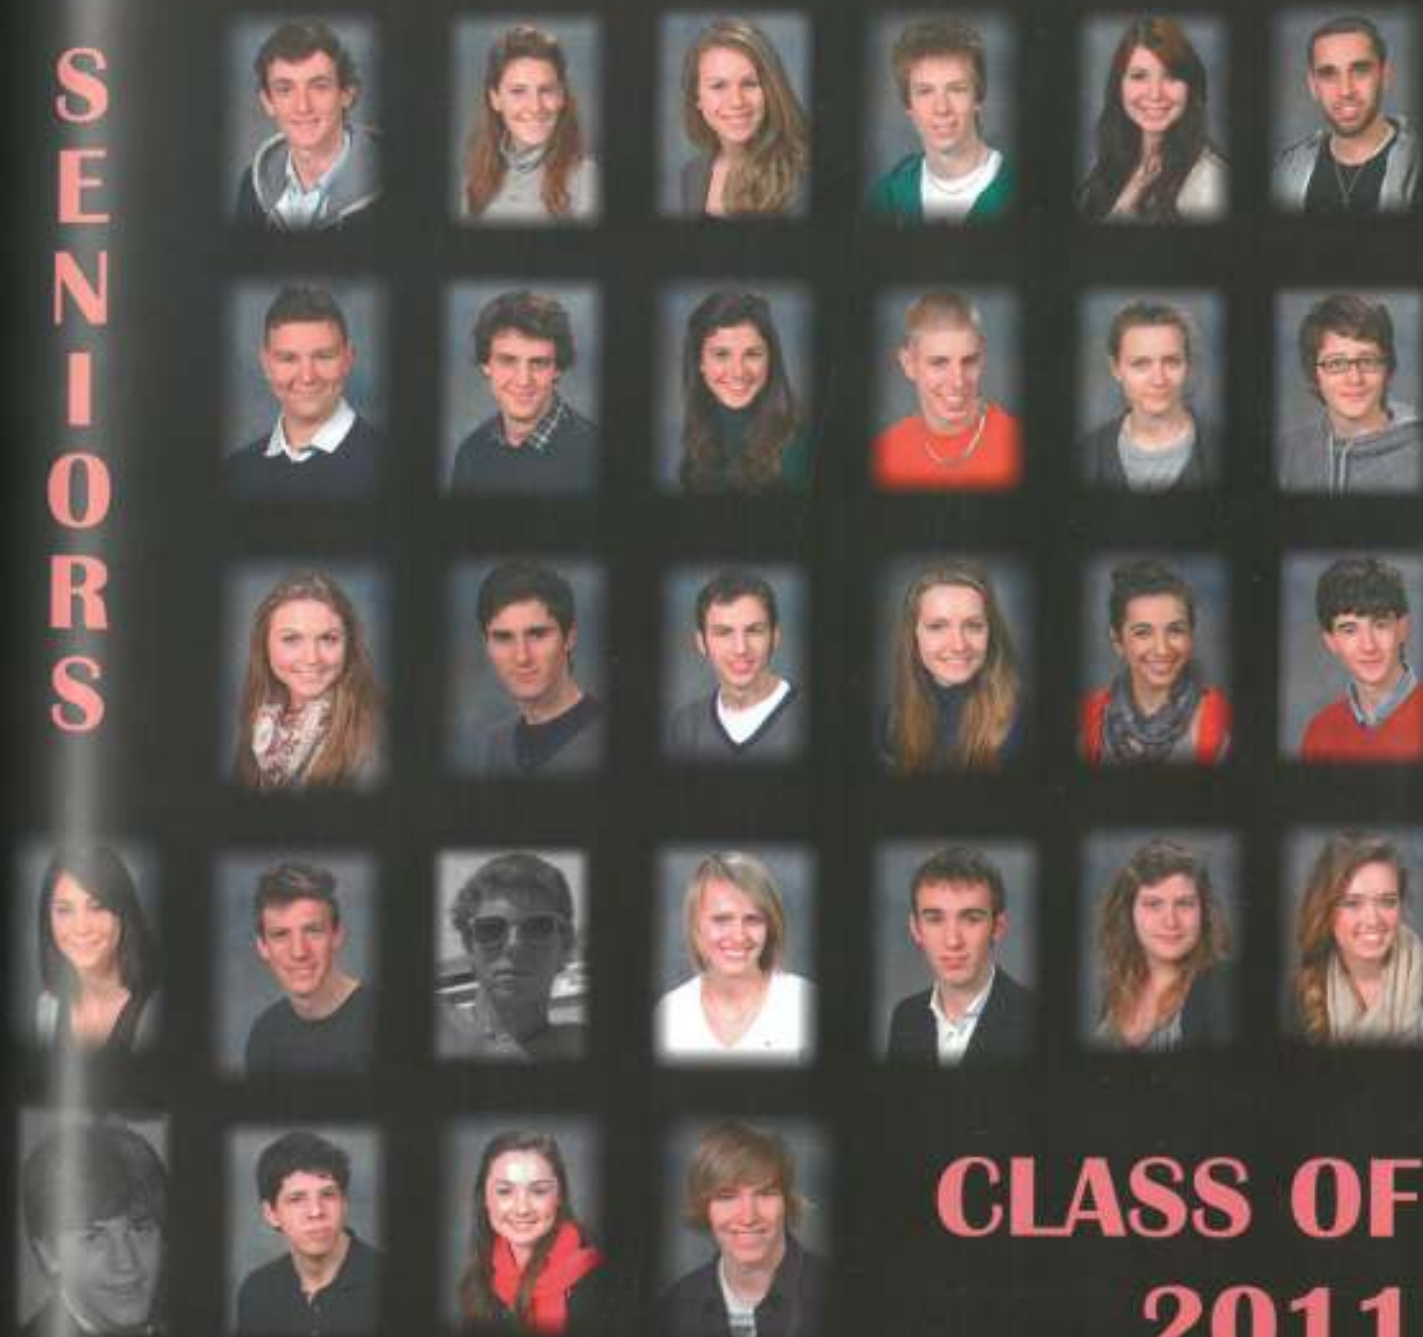

The grade 12s are coming. It's been a blast and I feel privileged to have spent time with such a fantastic group of people. My best wishes and Auguri to all of you for whatever your futures may bring.

Ms Sarah Cassell

And here is a list of the universities who have offered places to these wonderfully talented people:
Aberystwyth University | Aston University - Birmingham | University of Bath | Birmingham City University | Bocconi University (Milan) | Boston University (USA) | Bournemouth University | University of Brighton | University of Bristol | University of British Columbia (Canada) | Brunel University | University of Chester | City University | Coventry University | De Montfort University | University of Dundee | The University of Edinburgh | Edinburgh Napier University | European School of Economics (Madrid & Milan) | University of Exeter | University of Glamorgan-Cardiff-Pontypridd | University of Glasgow | The University of Kent | Lancaster University | University of Leicester | The University of Liverpool | Loughborough University | Marist University (USA) | Oxford Brookes University | Queen Mary - University of London | University of St Andrews | The University of Sheffield | University of Surrey | University of Sussex | The University of Warwick | University of Westminster | University of Western Ontario (Canada) | The University of York

A few of our students will also be applying to Università di Torino and IED, Torino in August 2011.

Mom & Dad: There's only one thing I can say to you guys: thanks for all your support and love throughout my education. I surely wouldn't be the man I am now without your influence.

Fabiola: The love of my life, good luck with your studies and always be the best you possibly can 'cause you're great.

Marco, Annarita, Gaia, Filippo: Una seconda famiglia: a voi ringrazio specialmente per il vostro supporto nella fase finale della scuola e potrò sempre dire che è grazie a voi se sono riuscito a finire la scuola.

Graduating Class of 2010: All the people who have witnessed and shared moments with me in my walk towards the completion of school, thank you and best of luck for the years to come.

Cosimo: Finally men, we done with high school. True late bloomers but finished with style. All the best in the near future and let's flip the UK around next year.

Josh: My man it's been long and hard but we got about through it all eh?! Hahah take care my Canadian friend.

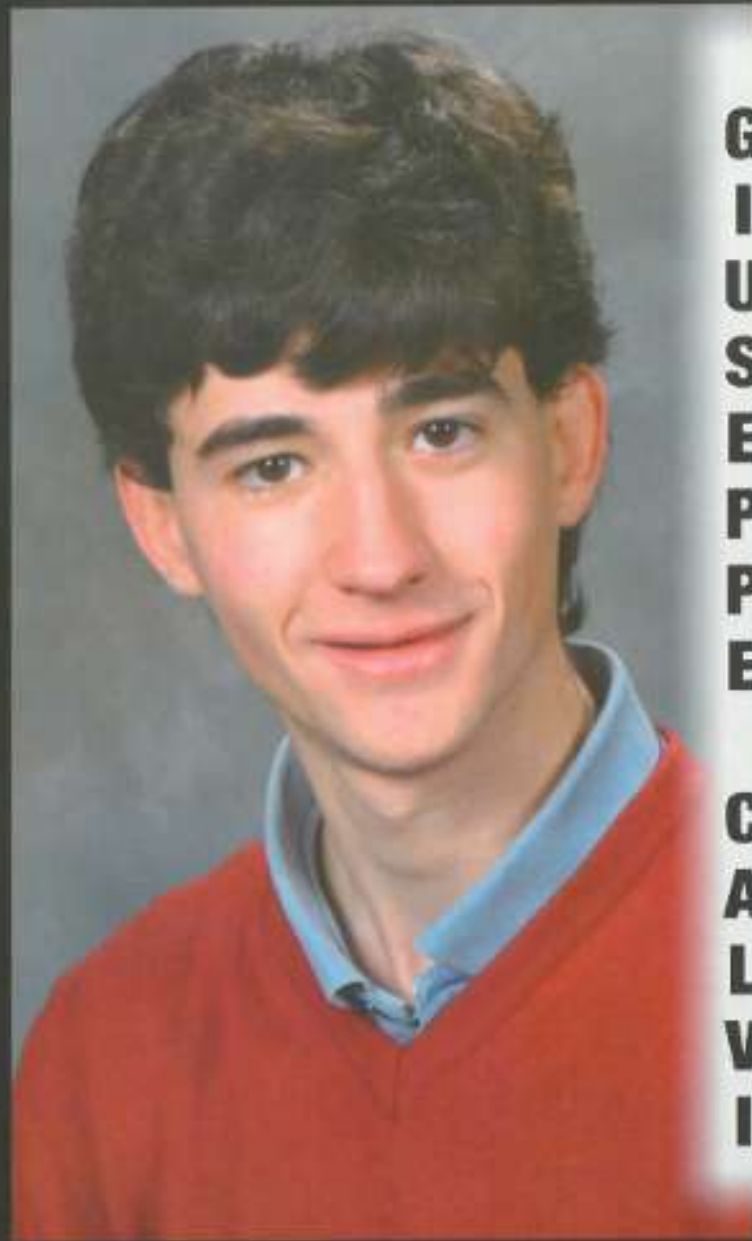

The Happy Tree Friends + Soraya + Anna: Despite various ups and downs, you girls made the IB more amusing and I wish you girls the very best.

Teachers: Knowing that I haven't been the best student to have worked with, I thank them for their support in helping me reach my goal- finishing the IB diploma.

Andy: Yo it's thanks to you I got to play sports in my last years of high school and you know we definitely had fun and even won something considering our small numbers.

Graduating Class of 2011: Best of luck in university and thanks!

A G U S T I N A G U E R R A B E N E D I T

It's hard to think that it's all over. I have to admit that I am leaving the school with wonderful memories. In fact, I want to thank all those people who made me live these moments in the past 8 years. I will miss a great deal of things, such as the "morning hugs" with Filo, the conversations with Gre starting already at 8.50 with her saying: "Agustina, tu non puoi capire", laughing so loud with Amiga that tears would fall down my face or calling her "periana" or the history classes and the gym "sessions" with Carlin. I will miss my classmates. After all the years we spent together, I have so many funny memories with every single one of them that it would be impossible for me to describe them all!

I want to thank my parents for sending me to this school and for the support they've always given me. And obviously I want to thank some teachers for both the support and the fun classes, such as history with Mr. Lawson, who made me perform Hitler (which was quite embarrassing) or gossiping with Mrs. Siviero or the confidential talks with Maria Dolores. Vorrei anche ringraziare alla Signora Buono per tutto l'aiuto che mi ha dato in questi due anni e per tutti i suoi consigli. Grazie, ne sono davvero grata. I then dare to say that my high school experience was wonderful and splendid.

C R I S T I N A H A J E K G R O S S

After having completed 12 years of school it seems unreal that this part of my life is now finishing. My last 2.5 years at IST have been an amazing and unforgettable experience. I have had the chance to get to know so many interesting people from all over the world, and learn many important things that I will take with me throughout my future life. However, all this would have not been possible and as much fun without my family, my friends and my teachers. I would very much like to thank you all for your constant support during the great, but also during the difficult times! THANK YOU!

Well, I'd like to begin by saying that the four years that I've been at IST were definitely four years that I will never forget. And that's mainly because of my amazing friends that were always there for me and made IB easier... So, thank you so much for being such great friends and always making me smile!

**S
O
R
A
Y
A

J
A
V
A
N**

Yo. The past four years have been quite a ride, though I can truthfully smile and say that I'm ecstatic that high school is no more! Hooray! Instead of focusing on myself, I'd like to take this time to thank the people that made all this possible, the catalysts of my perpetual bliss. Thank you.

Mom and Dad-You guys are absolutely astounding, and words cannot describe how much I want to thank you for everything you've done over the past 18 years of my life. The undying support, the patience and more over, the fact that regardless of everything, you're actually really bloody cool... It's going to suck living without you next year. I love you both so much even though you break my balls sometimes.

Carmen-You're my best friend in the whole wide world. I don't know how I would have dealt with everything without you. You being in Shanghai this year has been tough, but the thought of us in the same country next year reassures me. From our iguanas (why are they so big!) to tacos and camp rock (we both know what its really called) to late night spooning, TTYL.

Charlie-Frying cocker spaniels... ALIVE. You are like my brother, and it'll be sort of sad without our 3-movie sleepovers and pancakes in the morning. Also, gonorrhea, here we go again!

Lexy-I love my jawhol kittenitis duett more than cheese and powerpuff girls. You are genuinely one of the most caring individuals I've ever met... And you're a great drinking buddy too. Gollum

Mike-My musical buddy and close friend. Though we often clash on a political/religious front, I've learnt a lot from you. I really miss your mom's delicious cupcake. That's also what she said.

Gomez-I'll never forget tossing Carmen's underwear on her roof, and then fishing it back in with an umbrella and a broom. I miss you considerably, my favourite Mexican even though you're not actually Mexican.

Cosimo-I don't know how I'd cope at school without you. You're the only other sick, sick human being that shares my horrible sense of humor. I'll miss you, asshole.

Lorenzo - ARGHHHHHHHHHHH. You'll do great things Lolo.

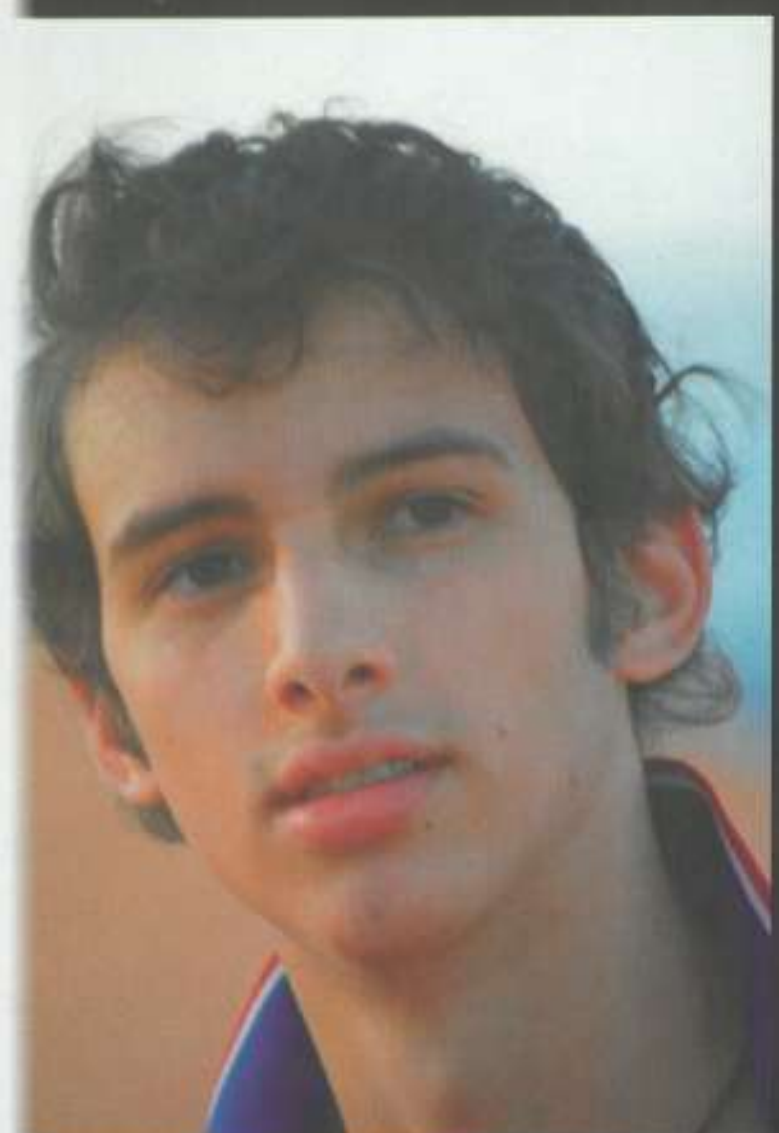

Edo-Sai che io ti voglio bene con tutto il cuore! Mi dispiace che le cose erano un po' strane in sti giorni, ma io non ti dimenticherò mai, amico. TUANT, CWAAT.

Tommaso-I'm happy we managed to forgive and forget, because not having you in my life is both painful and tedious. And unmanageable. I can honestly say I care about you more than I care about myself. I hope you manage to find eventual happiness, because everybody deserves to be happy. Ti voglio bene.

When I first moved to Torino in 2009, I thought 2 years sounded like a long time to be away from home. How I was wrong! It has gone so fast and I cannot believe that school is finally over! These past two years have been awesome and this would not have been without some people who have made my experience here exceptional. Ila, Agus and Greta, it is definitely true to say that you lit up my Torino and that I began truly loving my experience here once we became friends. We've had stressful times, but mostly and more importantly we've had great ones too, and I only have to remember them to start laughing all over again. Ila, my Soc, forevermore, and never forget it you will always be la mia amica del cuore. Dude we are FINISHED woot, woot or woot! Lol Agus, we became spending those Monday afternoons in history, catching up in our deep and meaningful convo's, we are special (but you are specialer lol) And Greta, well what can I say, you are just plain awesome and I will not forget our nights out dancing and having absolute fun. I love you guys truly and cherish your friendship and support and will miss you more than words can express. Giulia, we have been friends from the start and I have loved every minuet of it! You are truly the smartest person I know and I wish you the very best for the future. To the class of 2011, good luck in university and the future and thanks for making my time in Torino unforgettable. I'd also like to thank all my teachers over 2 years for your support and guidance. Most especially to Mr Webber you have been a great co-ordinator and thanks for all your help particularly in business. Also to Mr Lawson for making my history lessons exceptional and unforgettable over the last 2 years and all your time and effort with my extended essay and IA. Finally a great thanks to my Mum and Dad and family for providing that much needed support when I needed it. I love you lots.

WE'RE DONE CLASS OF 2011, good luck in the future!

GIULIA MELCHIORRE

I spent an amazing 4 years at IST mainly because of all the special people I met. Thank you for making this such a great experience- Cristina, Petra (we still need to marry :)), Katie, Caitlin, Ila, Joey, Laura, Soraya, Ceci, and everyone else from the Class of 2011. I wish you all the very best for the coming years and hopefully we will keep in touch!!! Special Thanks to all the teachers that have helped me through the past 4 years- especially to Mr. Webber, who was always there for us! Der größte Danke geht an euch- Mama, Papa, Donato und Gina- weil ihr immer für mich da wart!!! Ohne euch hätte ich es nicht geschafft. Ich habe euch sehr sehr lieb.

LUCA PININFARINA

CECILIA RASSETTI

Well, here we are! 13 years of ACAT/ IST and now a chapter of my life has been closed. These were the most interesting years of my life with many hardships and fun moments. These are the people I want to thank and that I will miss.

Teachers: to all teachers of IST a big thank you for supporting me and giving me the knowledge that brought me this far. You will be missed yet never forgotten!

To my Middle school friends: Giovanni, Cat, Lulli, Isa, Lucia, Fra, Jojo, Bianca, Misi and all the class of 2018, I will miss you so much!! Thank you for being kind to me and for brightening my days! I'll come visit, I promise! Sofi, Elisa, Silvia, Pietro, Paolo, Gugu, Ottavio, Tommy, Ila and Ele. I will miss you guys so much as well! I can't believe I won't see you every day anymore! Love y'all! =)

To my class: I will miss you very much. The best luck to everyone and thank you for everything!

And finally, thank you to family for giving me the chance to study at IST and for supporting me throughout this experience. Vi voglio tanto bene. Grazie and Thank you.

Mad props to the 12th grade class of 2011 for having endured until the finish line. A special thanks for all the laughs, the math class doodles, the arguments and the fights that have kept my mind off school for the last nine months. You've really made this experience much easier on me. HUUUUUGE thanks to "Coccie" & "The Crew" for... Well, again, for having taken my mind off school. And on that note, I'd like to thank my teachers for all the knowledge they've passed on to me. Lorenzo, let us treasure these "Grandtastic" high school years and keep in touch regardless of the distance. Thanks for the company meng!
